

Erin Probert

B. EnviSc&Mgt

Senior Environmental Scientist

SEEC

Strategic Environmental and Engineering Consulting

Erin is an Environmental Scientist with experience in wastewater management including domestic and commercial on-site wastewater management, soil assessments, environmental auditing and reporting.

She has over 8 years of experience and knowledge in the Contaminated Land Management industry for projects in NSW, ultimately gaining experience in environmental consulting, environmental approvals and waste classification, field work and sampling, ground gas risk assessment, sub-surface hydrocarbon impact, groundwater management, landfill compliance monitoring, environmental issues, data analysis, and project management.

Erin is an Environmental Scientist and an integral part of the SEEC team. She has experience in on-site wastewater management, contaminated land management and environmental compliance and monitoring.

Qualifications

- Bachelor of Environmental Science and Management, Physical Systems, University of Newcastle, 2023.

Areas of Expertise
